All prices are ex works Bückebug/Germany. Shipping and transport costs on request.

Errors and changes reserved.

Some of the instruments shown in this brochure are equipped with
special features which are subject to an extra charge.

SEMPRA 2.0 Arpeggiator

This new app is a limitless creative tool and can do much more than a simple arpeggiator. SEMPRA is extended by another versatile accompaniment section. Because in addition to typical arpeggios, sequences and even guitar melodies (runs) or typical guitar chord figures can be played. The new live guitar technology of SEMPRA ensures inspiring authenticity!

Up to 4 templates (arpeggio, sequence or guitar patterns) per arpeggio can be switched on and off separately via buttons or the new extended basic screen. Interactive control via the manuals is also possible. The arpeggiator only plays when you grab the keys. This way you control effective interjections, e.g. brass riffs, harp glissandi and much more.

Of course, you can edit the arpeggio templates in many ways, specifying instrumentation and various playing parameters individually.

To get you started right away, you will also receive a comprehensive software package with the app (activation) with 30 new sounds in soundbank 114, 12 new styles incl. SONG presets and a template library with 106 playing patterns.

41162 SEMPRA 2.0 Arpeggiator (incl. Software pack) **549,00 EUR**

Easy Edit Arpeggio

With the optional app **Easy Editor Arpeggio** you have an extensive construction kit for arpeggios and also styles(!) at your disposal! You can use it to import existing templates into style tracks, or vice versa simply export a track of a style pattern as a template to a USB stick. You can then use this track as a template in an arpeggio or even in another style!

You can of course create your own templates for your arpeggios using the record function in the style editor. You can also import multi-pad files in Yamaha ® format.

The package also includes another package with 128 templates

41164 Easy Edit Arpeggio: **149,00 EUR**

Arpeggiator extensions:

Art.-No.	item	price
42372	Template-Paket 2 zum SEMPRA Arpeggiator	79,00 EUR <input type="checkbox"/>

SEMPRA 2.0 Sideline

The Easy Record function for the SEMPRA: Record your playing and control panel actions (sound and preset changes, knob movements, etc.) as an overall recording. Specify which tracks to record. Add recordings to your overall recording later and edit your recordings using various functions.

41163 **SEMPRA 2.0 Sideline** 289,00 EUR

New SONG preset lists for SEMPRA 2.0

- 42362 **SONG list SONG-Box 1 Claus Riepe:**
64 tune-specific SONGs, each with 6 sophisticated presets by BÖHM specialist Claus Riepe.
(Requirements: the extensions MOVIE SOUND Edition, DSP Extension for AMADEUS, Sound Controller as well as the additional style packages and the RealOrgan extensions should be available, so that all registrations are playable without any restrictions) 129,00 EUR
- 42862 **Update of the previous SONG list Claus Riepe / Bernd Wurzenrainer to SONG-Liste SONG Box 1:** 59,00 EUR
- 42364 **SONG list Stage, Screen und Evergreen from DirkJan Ranzijn:**
